

## Universal shear

Blades in stainless steel, body in synthetic resin reinforced with fibre glass, handles in soft rubber and hand guard

For continuous cutting on stainless steel sheet up to 0,4 mm, copper up to 0,6 mm, aluminium up to 0,7 mm and also nets in synthetic resin, insulating materials, paper, cardboard, carpet, leather etc.

With spiral spring and opening and closing clasp that can be operated with one hand

For large radii and through cuts

Cutting edge length 50 mm / total 235 mm

Code B 2085 4000	B 2085/4	Each €	5
------------------	----------	--------	---

## Sheet metal compound leverage shears

Hot-stamped heads, double-tempered cutting edges - With spring and closing clasp

Ergonomic handles in two-component material with hand guard

**ABC<sup>TOOLS</sup>** In chrome-molybdenum forged, tempered steel - Hardness HRC 60-62

For cutting high-resistance sheet metal up to 1,2 mm (max. 1,5 mm) of thickness and stainless sheet up to 0,7 mm of thickness

**Erdi**

In forged, tempered steel - Hardness HRC 58-60

For cutting high-resistance sheet metal up to 1,5 of thickness (max. 1,8 mm) and stainless sheet up to 1,2 mm of thickness

For large radii and long, through cuts

**Erdi** - MULTISNIP model

Pelican type: bent head for safe cuts

Also suitable for cutting metal mesh, cardboard, leather, floor coverings etc.

Extra-long jaws 64 mm - Overall length 280 mm - Right cut

Code B 2085 6000	B 2085/6	Each €	5
------------------	----------	--------	---

LEFT cutting

RIGHT cutting

The cut of the shears is like shown in the drawing

For trimming and for short, straight cuts

With one knurled cutting edge for a better grip on the sheet, avoiding sliding  
Overall length 240 mm

B 2086/1 - B 2086/2 - **Erdi** - Cutting edges length 40 mm

B 2086/5 - B 2086/6 - **ABC<sup>TOOLS</sup>** - Cutting edges length 40 mm

Code B 2086 1000	B 2086/1	Right cut	Each €	5
Code B 2086 2000	B 2086/2	Left cut	Each €	5
Code B 2086 5000	B 2086/5	Right cut	Each €	6
Code B 2086 6000	B 2086/6	Left cut	Each €	6

B 2086/1

B 2086/5

**Erdi** - Mod. Ideal - Blade hardness HRC 61

Limited handle opening angle for better handling and to make full use of the length of the cutting edges

Compact head shape for even simpler and more precise curved cut

Blade opening device centrally located, suitable for right- and left-hand users without having to change the handles

With hinge equipped with sintered steel insert

Overall length 230 mm - Cutting edges length 30 mm

Limited handle opening angle

Code B 2086 7000	B 2086/7	Right cut	Each €	5
Code B 2086 8000	B 2086/8	Left cut	Each €	5

B 2086/7

B 2086/8

For trimming and through cuts

**Erdi**

With one knurled cutting edge for a better grip on the sheet, avoiding sliding

Overall length 240 mm - Cutting edges length 40 mm - Right cut

Code B 2087 1000	B 2087/1	Each €	5
------------------	----------	--------	---

For trimming, through, straight cuts and small radii cuts

Compact head for a great handling and cuts in hard-to-reach places

**ABC<sup>TOOLS</sup>** - Short version

Ergonomic handle coated with soft rubber for fatigue-free work

With closing clasp that can be inserted with one hand

Overall length 180 mm - Cutting edges length 20 mm

Code B 2085 8000	B 2085/8	Right cut	Each €	10
Code B 2086 0000	B 2086/0	Left cut	Each €	10

Length 180 mm

**Erdi** - Ideal model

For trimming and for through cuts

Overall length 230 mm - Cutting edges length 27 mm

Code B 2088 1000	B 2088/1	Right cut	Each €	5
Code B 2088 2000	B 2088/2	Left cut	Each €	5

B 2088/1
