

Water pump pliers for nuts - Cobra®

In forged, oil-hardened, chrome-vanadium steel - DIN ISO 8976

With double guide continuous hinge pin for great stability and guard between the handles to prevent operators' fingers being pinched - Combined, concave toothed and straight knurled jaws
Self-locking, firm grip on the workpiece, and minimum force required
Approx. hardness tempered teeth 61 HRC, wear resistant, for a firm grip

"SmartGrip" model

Adjustment through handle pressure: the jaws automatically and rapidly adjust according to the working piece to give the necessary power, once the operation is finished the internal spring brings back the pliers to their original position

Thermoplastic coated handles - polished head

Easy handling with one hand for both right and left-handed people

With safety clasp to safety close the jaws

For pipes with max Ø 1 1/4" (32 mm) - For nuts up to 36 mm

Overall length 250 mm

Code B 2315 9000	B 2315/9	Each €	 6
------------------	----------	--------	---

"SmartGrip" model

Automatic adjustment: no time-consuming trial and error-adjusting to find the correct opening size

"Cobra" QuickSet" model

Specifications, as for "Cobra" model, but with fast and simplified adjustment to the workpiece:

- ① push the button and open the pliers up to the last position
- ② place the upper jaw on the workpiece and push the lower one to tight
- ③ the hinge pin releases the button after the first pressure

No accidental move of the jaw opening - Tapered shape of the head and junction

The accurate adjustment allows for the workpiece adaptation also to various shaped and to find the ideal handle position for the operator's hands - Thermoplastic coated handles - Polished head - pce. 1
