

HUNGER Hand equipment for valve seats

For refacing valve seats (and for correction to 15° and 75°) by hand turning, in internal combustion and Diesel engines

Housing hole in the tool holder head Ø 9,52 mm

For vehicles with valve seats having diameter up to 60 mm

The blades contained in the set are multiple use and each of them can be used for turning, correction to 15° (top set edge) and correction to 75° (bottom seat edge)

For each of the three jobs mentioned, which can also be done individually, C 682 blades are used
Slides can be changed easily and quickly

SET WITH ONE HEAD AND TWO INTERCHANGEABLE BLADE HOLDER SLIDES

For seats at 45° and 30°

For vehicles with valve seats from 17 to 60 mm and valve guides from 7 to 9 mm

Particularly suitable for cars

For readjustment of very hard or large valve seats it is advisable to use a collar for the heads and a support with a clamp to prevent any vibrations

For vehicles with a valve guide size less than 7 mm or more than 9 mm the right size pilot pins C 679 should be used depending on the diameters

In wood box consisting of:

1 basic unit	2 adaptor heads	3 Pilot pins complete with collets	4 carbide tipped blades
	 45° 30°	 (C 679) sz. 2 - 3 - 7	 (C 681/1) Mod. 1 - 2 - 3 - 4
 2 pins	1 hexagonal "T" wrench 3 mm, with handle		1 Hex-L wrenches 4 mm
			1 Nylon brush
For valve seats at 45° and 30° (mod. VDS1A-45°-30° with collar) With fast moving slide through ring, without collar			
Code C 0664 0000	C 664	Each €	 1

SET WITH ONE HEAD, TWO INTERCHANGEABLE BLADE HOLDER SLIDES AND FIXING SUPPORT

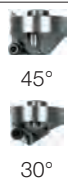

For seats at 45° and 30°

For vehicles with valve seats from 17 to 60 mm and valve guides from 7 to 12,9 mm

Particularly suitable for auto workshops which readjust cars and medium size trucks

For vehicles with a valve guide size less than 7 mm the pilot pins C 679 size 5,9-6,2 mm should be used

In wood box consisting of:

1 basic unit with collar	2 adaptor heads	6 Pilot pins complete with collets	6 extra increased collets	7 carbide tipped blades
	 45° 30°	 (C 679) sz. 2 - 3 - 7 - 10 13 - 15	 (C 680) sz. 38 - 45 - 50 - 54 58 - 61	 (C 681/1) Mod. 1 - 2 - 3 - 4 5 - 6 - 7
 1 support with collar	 3 pins	1 hexagonal "T" wrench 3 mm, with handle		2 Hex-L wrenches 4 - 6 mm
				1 Nylon brush
For valve seats at 45° and 30° (mod. VDS1A-45°-30°) With fast moving slide through ring, with flat end collar				
Code C 0667 1000	C 667/1	Each €	 1
