

## Abrasive pads

### In synthetic abrasive cloth

For manual applications and use on orbital sanders to remove encrustation, corrosion, light scratches or marks, for satin finishing and smoothing surfaces in wood, synthetic materials, metals, paints and plastering

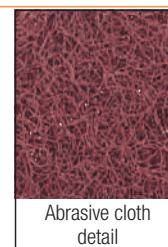

Also suitable for light deburring applications, deoxidizing before welding or removal of paint residues

Highly flexible, it can fit any profile

With constant effect, it doesn't clog, resists tearing and breakage and provides long lifetime

Can be used on wet or dry surfaces (add emulsions or oil, depending on the material)

The pad is not subject to rust and can be cleaned with water or compressed air

Abrasive cloth detail

### Type in rectangular sheets

**D 9696** - LUKAS - Dimensions 150x210 mm - In indivisible pack of 10 pcs.

**D 9696/2** - Dimensions 120x280 - In indivisible pack of 20 pcs.

Grit approx.	100 (coarse)	280 (fine)	320 (very fine)	1000 (ultra fine)
Code	D 9696 0100	D 9696 0280	D 9696 0320	D 9696 1000
<b>D 9696</b> Each €				
Code	—	—	D 9696 2320	D 9696 2999
<b>D 9696/2</b> Each €				
Colour	Brown	Green	Red/Brown	Grey

### In rolls 10 m x 115 mm

Particularly suitable for use on orbital sanders

Grit approx.	280 (fine)	320 (very fine)	1000 (ultra fine)
Code	D 9697 0280	D 9697 0320	D 9697 1000
<b>D 9697</b> Each €			
Colour	Green	Red/Brown	Grey

## Sheets of abrasive cloth

### With corundum abrasive coating

For manual use for grinding and finishing surfaces in metal, steel, wood, plastered and painted walls

**Abrasive fleece with excellent resistance to tearing and stress - Long lifetime**

In sheets 230x280 mm - In indivisible pack of 50 pcs.

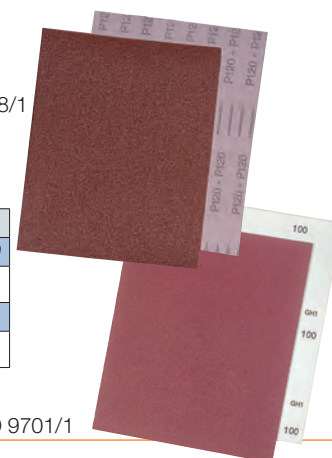

**D 9698/1** - Abrasive fleece

**D 9701/1** - Abrasive paper
