

Deburring tools

For sheet metal deburring

With 2 round blades in high speed steel - HSS

Two adjustable double-sided blades for extended tool life

With **hand guard** for worker safety

For deburring double edges in one pass on sheet metal, aluminium, brass and plastics up to 10 mm thickness

Code F 8420 0000	F 8420	Each €	1
------------------	---------------	--------	---

Spare round blades in high speed steel - HSS

Code F 8420 1000	F 8420/1	Each €	10
------------------	-----------------	--------	----

With swivel blade in high speed steel - HSS

For adapting to profiles

Suitable for deburring holes, slots, edges, etc.

Hexagonal handle 12 mm in light alloy, handy

With 1 «MAXI» blade F 8429/4 Ø 3,2 mm - Overall length 130 mm

F 8421 - With **non-interchangeable blade** and pocket clip

F 8422 - With **interchangeable blade**

Code F 8421 0000	F 8421	Each €	1

martor

Mod. CURVEX

Ergonomic handle in synthetic resin **with blade magazine**, knurled nut to lock in position the blade holder - **With swivel blade for adapting to profiles**

Reversible and sliding blade holder, with bayonet attachment for «MINI» blades Ø 2,5 mm and «MAXI» blades Ø 3,2 mm

Complete with 1 «MINI» blade F 8426/5 Ø 2,5 mm - Overall length 140 mm

Code F 8423 0000	F 8423	Each €	5
------------------	---------------	--------	---

Mod. CERACUT

Handle in synthetic resin with blade magazine

Complete with **ceramic blade** F 8424/4 for deburring plastics and soft metals, avoiding damage to the workpiece as caused by metal blades

Suitable for deburring edges, smoothing surfaces, removing paint sprayed points and separation lines from mould halves, etc.

Overall length excluding the blade 140 mm

Code F 8424 3000	F 8424/3	Each €	5
------------------	-----------------	--------	---

Ceramic blade

Spare **ceramic blade** for knife F 8424/3

Code F 8424 4000	F 8424/4	Each €	1

Pipe reamers for copper pipe → B 7 pag. 226

Deburring cutter → C 6 pag. 333

Modular model

Universal two-component handle - (Without blade holder)

In plastic material with non-slip rubber inserts - Resists oil corrosion

Conical, ergonomic shape for excellent grip and high torque

Suitable for all blade holders

With blade magazine and screw cap

Press the ring nut to adjust blade holder protrusion up to max 100 mm

Code F 8425 0000	F 8425	Each €	1
------------------	---------------	--------	---

Blade holder - For «MINI» blades Ø 2,5 mm F 8426/4 - F 8426/5 - F 8426/6 - F 8426/7

Code F 8426 1000	F 8426/1	(Model B)	Each €	1
------------------	-----------------	-----------	--------	---

«MINI» blades - Ø 2,5 mm

In high speed steel - HSS, for internal and external deburring

Code F 8426 4000	F 8426/4	Each €	10
------------------	-----------------	--------	----

In high speed steel - HSS - For brass and cast iron and for working in any direction

Code F 8426 5000	F 8426/5	Each €	10
------------------	-----------------	--------	----

In high speed steel - HSS, for internal and external deburring on thin materials

Code F 8426 6000	F 8426/6	Each €	10
------------------	-----------------	--------	----

In high speed steel - HSS, for deburring from behind

Code F 8426 7000	F 8426/7	Each €	10
------------------	-----------------	--------	----

Ø 2,5 mm
